INTRODUCTION OF WHAT WE WILL DO

- During the program the involved partners will set up a non-formal training program for “Youth Mediator” that allows youth workers and youth to learn necessary skills in order to mediate in youth conflicts. Best practices should be transferred from each member country considering different cultural environment and legislation on mediation and training programs, in order to execute an effective and successful program that can be implemented in long term and could reach positive effect on youth.
- During the compilation of training the requirements will be discussed as well, and a final draft of the application program “Youth Mediator” will be handled in all participant countries to the state training organization, aiming to be authorized in the participant countries; in Hungary by the National Institute of Vocational and Adult Education and the Hungarian Chamber of Commerce and Industry as a new non-formal qualification in the official training list. The program emphasize the mobility, thus young people and youth workers from Spain and Italy would visit Hungary in order to meet and discuss, share their experiences and help to prepare a successful youth mediation program.
- The participants firstly testing the new non-formal qualification in Hungary will be 12 youth and 9 youth workers from all partner countries. After the first pilot testing a second line pilot testing will be organized whereby the participant youth workers test and adapt it with 3 further young people in their own institution in each country (12 further young people).
